- Chair for large rooms with innovative multifunctional element MFE plus for self-centring stacking
- Can be stored in stacks of up to twenty chairs, with a mixture of chairs with and without armrest in each stack
- The MFE also protects against scratches and reduces noise on every edge of the frame and when the chairs are stacked
- Integrated row connection for a multitude of placement variants: chair to chair, chair with armrests to chair, chair with armrests to chair with armrests
- Seat shell in moulded wood, plastic and with seat and back as separate elements
- Additional version with high-quality mesh material, available as a stacking chair, swivel chair and cantilever chair
- The mesh material adapts to suit any body shape
- Optionally available with the contactless numbering system numera evo
