- Slender, dynamic yet elegant appearance thanks to seamless transition between frame, seat shell and delicate armrests
- Flexible polygonal blades ensure optimum adaptation of the plastic shell to the human body
- Top seating comfort thanks to ergonomic shape
- As an elegant cantilever chair or as a dynamic conference armchair, optionally with a raised backrest
- Conference armchair also as a high-back chair for use in high-quality conference rooms or management offices
- Noble upholstery with visual separation of the individual ergonomic zones; this creates exciting colour contrasts and many design options
- The innovative radial-kinetic activation (RKA) movement mechanism integrated in the cast joints encourages "dynamic sitting"
- Armrests made of high-quality aluminium die-cast, cantilever frame made of steel, conference chair frame made of aluminium die-cast, optional with powder-coating, chromed or black chrome
- Conference chair, with optional return mechanism, can rotate, or available as swivel chair variant with open casters
