boards

- The multifunctional range for agile work environments
- Ultra-lightweight whiteboards as the main component: writable on both sides and optionally magnetic
- Addition of tables, storage trolleys, stackable stools and shelves that transform into portable easels
- Shelf can also be configured as a coat rack and media trolley
- Maximum flexibility and durability thanks to casters and functional details like removable elements
- Media cart for digital presentations and hybrid working
- Wide range of accessories, including whiteboard connectors, toolboxes, electrification and wall rails
- Super simple and intuitive
- Materials can be separated and sorted and are recyclable

BO200

seat and frame

- multifunctional stool for optimal use in combination with whiteboards
- with cut-out along the seat, ideal as a handle or holder for a whiteboard
- laterally extended metal frame for vertical mounting of whiteboards
- steel base coated

standard finish

- wood natural beech, satin lacquered
- steel base coated in lava
- free-running casters with grey tread (Ø = 50 mm), for universal use, black housing, matching to base coated in lava

options and accessories

- wood beech stained according to beech standard range, satin lacquered
- wood oak stained light (E1500) or pure (E2100), matt lacquered
- steel base coated in selected colours
- free-running casters with grey tread (Ø = 50 mm), for universal use, stone housing, matching to base coated in stone
- load-dependent braked casters (grey tread), against unintentional rolling away, universally applicable, black or stone casing, matching the selected frame colour*.
- four lockable casters (grey tread), against unintentional rolling away, universally applicable, black or stone housing, matching the selected frame colour

* Note: this version does not meet the requirements for stability in accordance with DIN 16139.

MEDIA TROLLEY

Designer: osko+deichmann

model no.

BO332

description

- shelving for media use with vertical strut on one long side and monitor holder*
- including a power socket, 3 m cable** and a hook for cable suspension
- inclusive shelving rail system BO410
- with 2 shelves and one storage surface made of perforated sheet metal
- intermediate shelves (178.5 x 38.5 cm) made of chipboard 20 mm, edge matching
- frame made of steel or coated sheet steel
- lockable casters with grey tread (Ø = 100 mm), for universal use

* Suitable for screens up to 65" (recommendation 55"), max. weight 35 kg.

** Remaining length of supply cable (minus cable length in vertical strut) is 1.7 m.

standard finish

- frame, vertical strut and hook coated in lava
- casters with grey tread, black housing
- intermediate shelves covered on both sides with HPL U12007 SD graphite-black, matching ABS edge

options and accessories

- frame, vertical strut and hooks coated in selected colours
- casters with grey tread, stone housing, matching selected frame colour
- intermediate shelves covered on both sides with HPL U11500 SD white-grey, matching ABS edge
- intermediate shelves covered on both sides with oak stained light (E1500) or pure (E2100), matt lacquered, edge matching
- intermediate shelves covered on both sides with Nano Tec NTB0091 light grey, NTB0093 granite or NTB0099 black, edge matching
- power supply cable 6 m (E2790)*

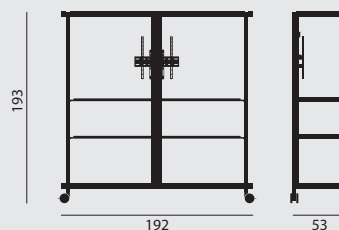

* Remaining length of supply cable (minus cable length in vertical strut) is 4.7 m.
